

## ***L. P. Savani Academy Day Boarding***

**Class: VI**

**Month: July**

Month of July was full of excitements and students were ready for a fresh start. VI graders were focused towards curriculum as FA1 was about to start.

July month gave many creative students to the school. Students showed their talents innovatively in 'Best out of waste' and Aarti Thali decoration competition. Girls showed their creativities in Mehandi designs.

Academics also kept children on their toes. In English they prepared biographical projects of two poets.

These young scientists experienced classes in laboratory and learned different techniques of separation in day to day life.

History taught them how to behave in present and these talented historians prepared a graphic story on Mesolithic age on their own.

Creativities of children can be seen from Hindi newspaper prepared by them in the class.

Talented actors touched the hearts, when they enacted a poem on "Save a girl child" in Drama & Speech.

Music classes gave them training in Rag Bhopali. Students were also taught the theory of Classical Dance.

As a part of experiential learning they visited water filter plant to understand how water is treated to make it potable.

This was just the glimpse of the month of July, there is lot more in store to come up in the rest of the months.
